

Australian Bible Students Conference

Streaming Service

Instructions for using Uberconference

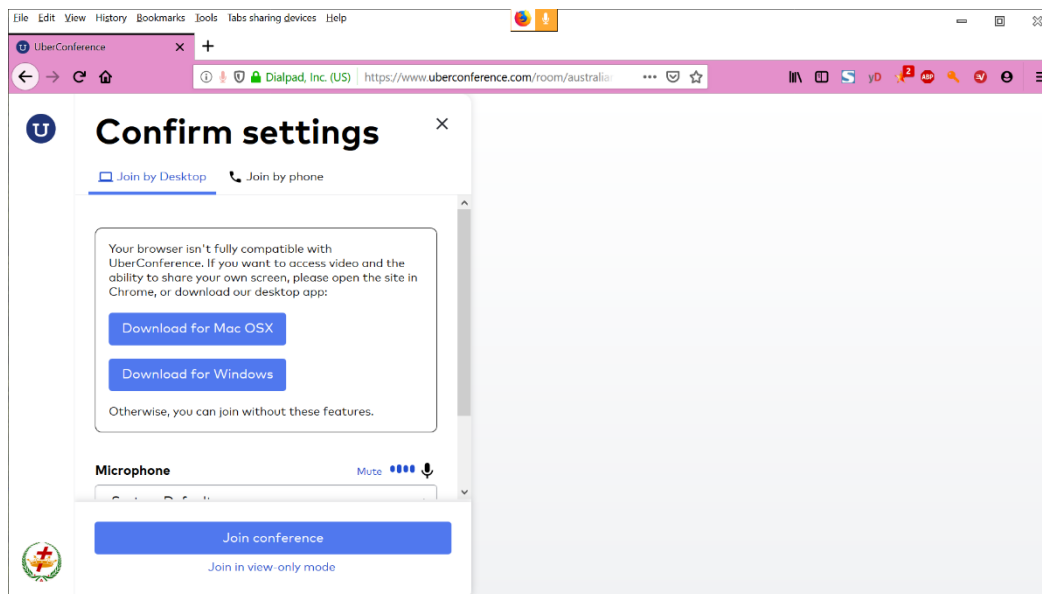

<https://uberconference.com/australianconvention>

This will open the sign in page.

On the sign in page you just need to put your name. No need for email or phone number.

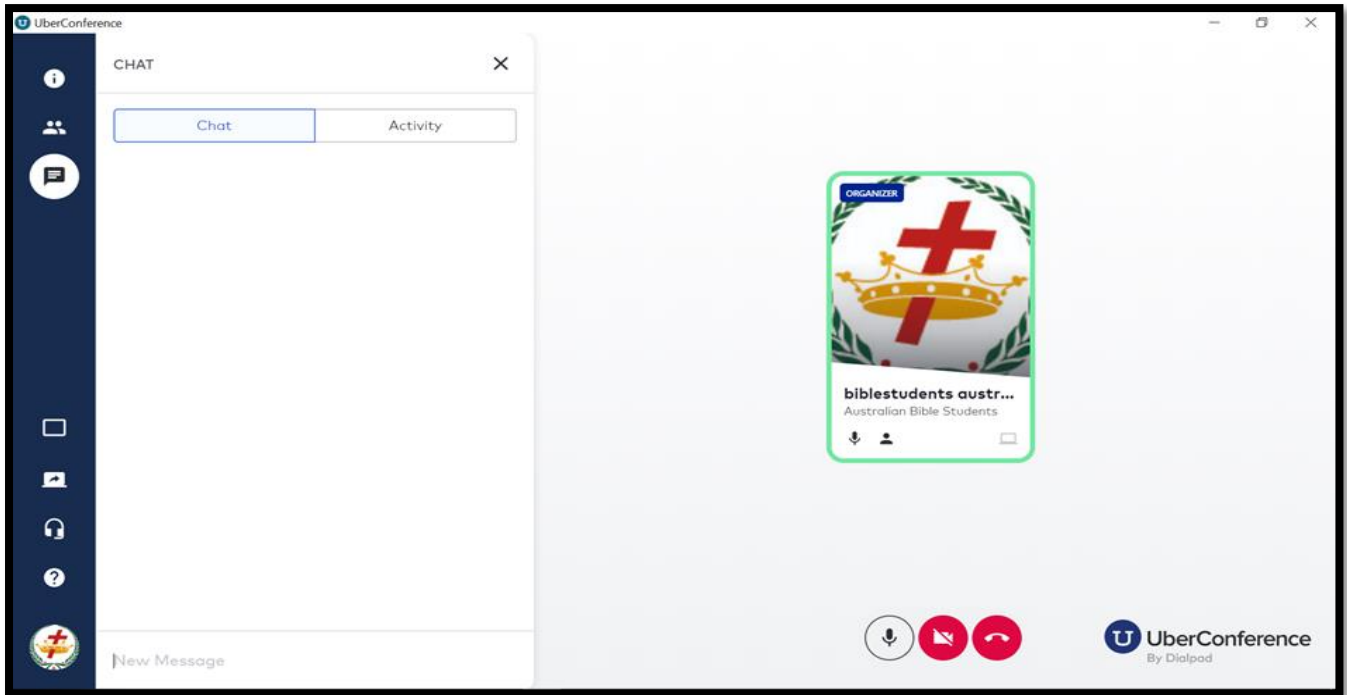

Web Browsers

- **Google Chrome.** This is the **preferred browser** for Uberconference. To make it easier to use it is worth adding Uberconference Extension for Chrome. Click on the link after you have opened Chrome <https://chrome.google.com/webstore/detail/uberconference-extension/npakjcgbebhfhfgcmcoehmehicdhcjb?hl=en>
- **Firefox or Safari** Both these will work but when you put in <https://uberconference.com/australianconvention> you will get the following screen. You will need to click on either download for windows OR Mac OSX

After downloading open the download and install. It will place an icon on your desktop for you to open. You click on Join a conference.

For brethren in the USA and Canada who do not have computers you can dial in using 213-634-3038

Meetings:

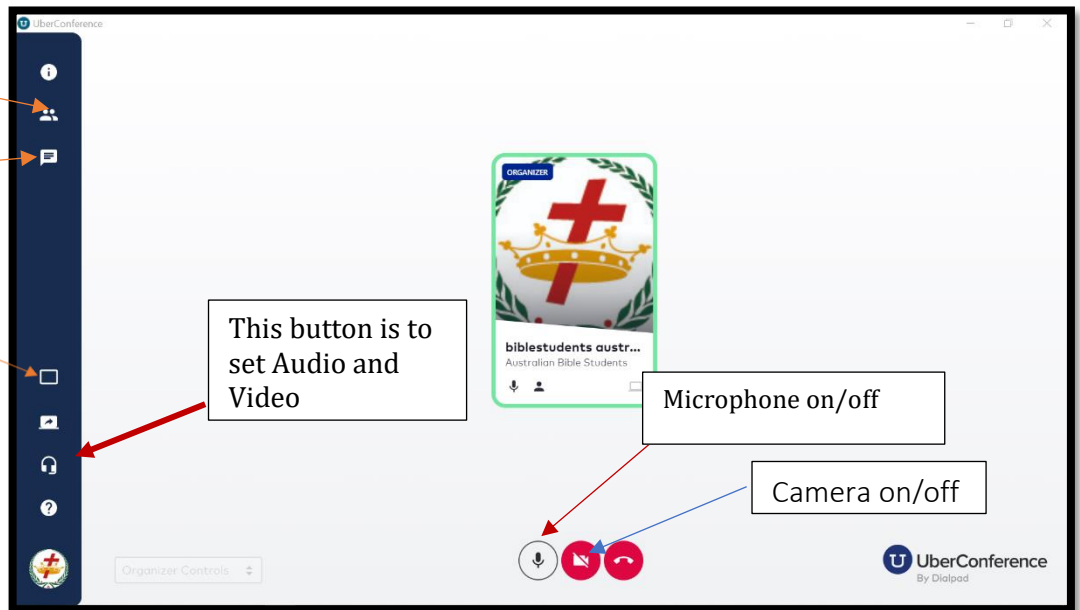

For meetings where video is not used this is how the screen will look.

The button will show who is online.

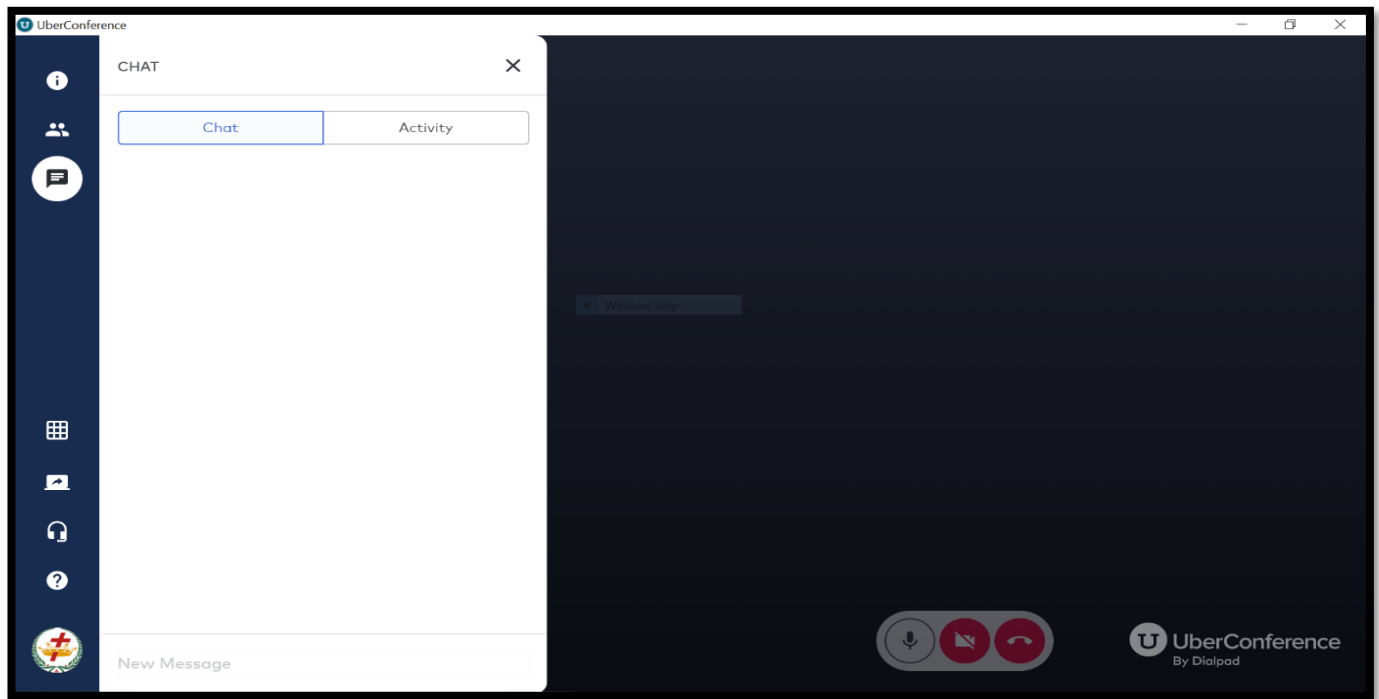

This button opens the chat window

This button is used to change the screen setting so that the speaker takes up most the screen.

The screen with the chat window open using audio only

The screen with Video or sharing

The Screen with chat plus receiving Video from a convention. (The black area is the video)

With Screen sharing a thumbnail view of the presenter will show which if you put the cursor over it you can move it around the screen

PLEASE NOTE You can use a smart phone to listen to the conference, but no video is available
